Planners notes: Thank you to everyone for running and braving the good old British summer weather. I really enjoyed planning the event and attempted to make use of as much of the map as possible for both courses to utilise the open areas and the small bits of forest to provide some variety and maximise route choice. Judging by the comments afterwards, I hope you enjoyed running the courses too. I apologise for the lack of waterproof maps, I foolishly was guided by the weather forecast which proved to be wholly inaccurate! If anyone would like a PDF copy of the course, to replace their soggy map, please email me.

A big thank you to my father Brian and David Fisher for their extensive help on the night and for Mike Elliot's assistance with equipment etc.
