It was confirmed we are now corporate members of Surrey Wildlife Trust and should flag this on the website home page (ACTION – DS).
5. **Bursar’s report**  
Bill reported a continuing healthy bank balance and an expected surplus from the recent night event. The club had also received an outstanding payment from the Amazon commission via the website. Bill would be approaching people to inspect the next accounts
6. **Mole Development**  
Peter introduced the main aspects of the development report. It was confirmed that a Mole Valley Ladies whatsapp group would be established to offer support. Nonsuch, Beddington Park and Nork were identified as the best candidates for a summer evening series and this highlighted the merit of updating some of the smaller “park” maps. The Committee reaffirmed the view that Xplorer had a separate identity to orienteering and was unlikely to provide an effective pathway into the sport. It was also reminded of the challenge of securing Clubmark and that there was less encouragement for this from external bodies than previously.  
  
It was agreed to explore a new Mole O-top with a more contemporary design. Peter and Tim/Sarah agreed to develop a proposal and Philip volunteered to secure an estimate of costs (ACTION – PM, TS, PG)
7. **POC update**  
A design for the new POC posts was agreed (ACTION – PG)  
Tony reported on the replacement POC to be installed in Beddington Park and a new POC at Nork Park, which would be guided by a Mole volunteer on installation (ACTION – TB)  
It was agreed to prioritise the maintenance of the other POCs, with Horton Country Park as a priority (ACTION – TB)  
Ian reported that Ranmore and Norbury Park (except control 7) were in good health and Peter reported Nonsuch was also complete  
Mike E reported interest from 135 Squadron Topo in supporting the club
8. **Fixtures**  
Tony presented the latest Mole Fixtures and sought advice on filling key volunteer roles. The Mole Fixtures was updated during discussion and plans for major events in 2021 were confirmed.
