

Bookham Spanish Score – 19th June 20, 2013 – Results

Thank you one and all for turning out for this event. The Spanish Score format is something of a rarity in orienteering but I think it's quite a good concept and I'm pleased to say many of those present expressed their agreement with this. I was asked, but I have no idea why this format is deemed to be "Spanish". The only possible connection to Spain with this particular event were the warm conditions. So that will have to do.

It was good to see Tim Leventhall out once again and visiting lady Jeanne Kalorkoti putting in a strong run on the longer course. Particular thanks to the Sullivan clan for boosting the numbers and Dan should be singled out for his impressively quick winning run round the shorter course. With that sort of pace he should really have run the extended route I think, but maybe it was too warm a night for that. Jon Moore gets the bravery award as he had competed in an event the previous evening and again for over 2 hours during the afternoon prior to this one. He then had to walk a mile and a half to catch his bus home. I'm sure he slept well.

Well done to Dan and Nick for winning the short and long courses respectively and my thanks to Mike Elliot for his assistance on the night.
