32	Mirella Genziani	IND	W40	70	87	-17	68:41

SPECIAL LINEAR COURSES

Ralph Scarbrough (M7) completed his course in 49:33

Hugh Scarbrough (M5) completed his course in 50:08

Well done to both of them for completing a tough course in great times.

Thank you all for coming. What a pity control 27 went missing, I had to disregard it in the results. Even more of a pity, there are people out there intent on spoiling the fun for everyone else. I hope it didn't spoil things too much for you, we can't let these people achieve their aims. Obviously it affected the times for some people more than others. Andrew Hill actually found all 28 controls in his early run so whilst recorded as 2nd, I think he deserves equal honours with Dan Sullivan who once again picked them all up in a great time. Martin Skinner also found them all and was probably only penalized by taking time to look for the missing control, so well done to him too. Relative newcomer to off-street orienteering, Simon Booth, also deserves credit for his excellent score. Leading the ladies home this time was Dawn Clifford with a great score and no time penalties. As an independent I hope Dawn will consider joining a club and she would be very welcome at MVOC!! Those with lowly scores should not be downhearted. Everyone found lots of controls and, in Martin Parker's case, he was achieving a creditable score but then either lost his way to the Finish or forgot to punch the Finish? Either way I'm sure lessons have been learnt.

The next event will be the final event of the series at Nonsuch Park on **June 25th** before moving to Nork Park in July. It will be another “Odds & Evens” score but next time the control values will vary. The event details are on the web site now so we **welcome you all, but PLEASE make sure you reserve a map so that we can provide enough on the night.** David Fisher (Organiser/Planner)
