15	Nigel Saker	SLOW	M70	Retd			

Thank you to a small but select group for coming to the penultimate event of the Summer Score Series. Well done to everyone for achieving great scores and in particular the first 4 for visiting every control within the time limit. The Sullivans took the honours this time with Dan leading the men once again with an impressive time below 30 minutes! Deborah continues her recent good form leading the ladies back and could have done even better with plenty of time in hand.

Timothee was making a welcome return to orienteering after many years and is clearly one to watch progress. Also a quick mention for Alice running her first Orienteering event and achieving a creditable score. I hope we will see her back after an impressive introduction. Nigel Saker was forced to retire after suffering a nasty head injury from an overhanging tree branch but I am assured he was OK afterwards and I wish him well.

The finale of the Summer Series will take place again at Nork Park on **23rd July** which will be the nearly famous **Snooker O**, following popular demand, along with a short "normal" line course and of course Mike Bolton's coaching exercise. I hope a few more come along to enjoy what's on offer. Details are at www.mvoc.org now.
